

String craft : Basic techniques

Let us create string art on paper. Take a print out of the design and make holes in the given points. Tools required for this activity are a needle, different coloured strings and pair of scissors.

- 1 Take thread / string of your choice and start from the bottom side of the paper. Ensure that you secure the string with a knot.
- 2 Create your own design by running the coloured string through the holes. At the last hole secure the thread once again by tying a knot below the paper.
- 3 One pattern is shown for your reference.

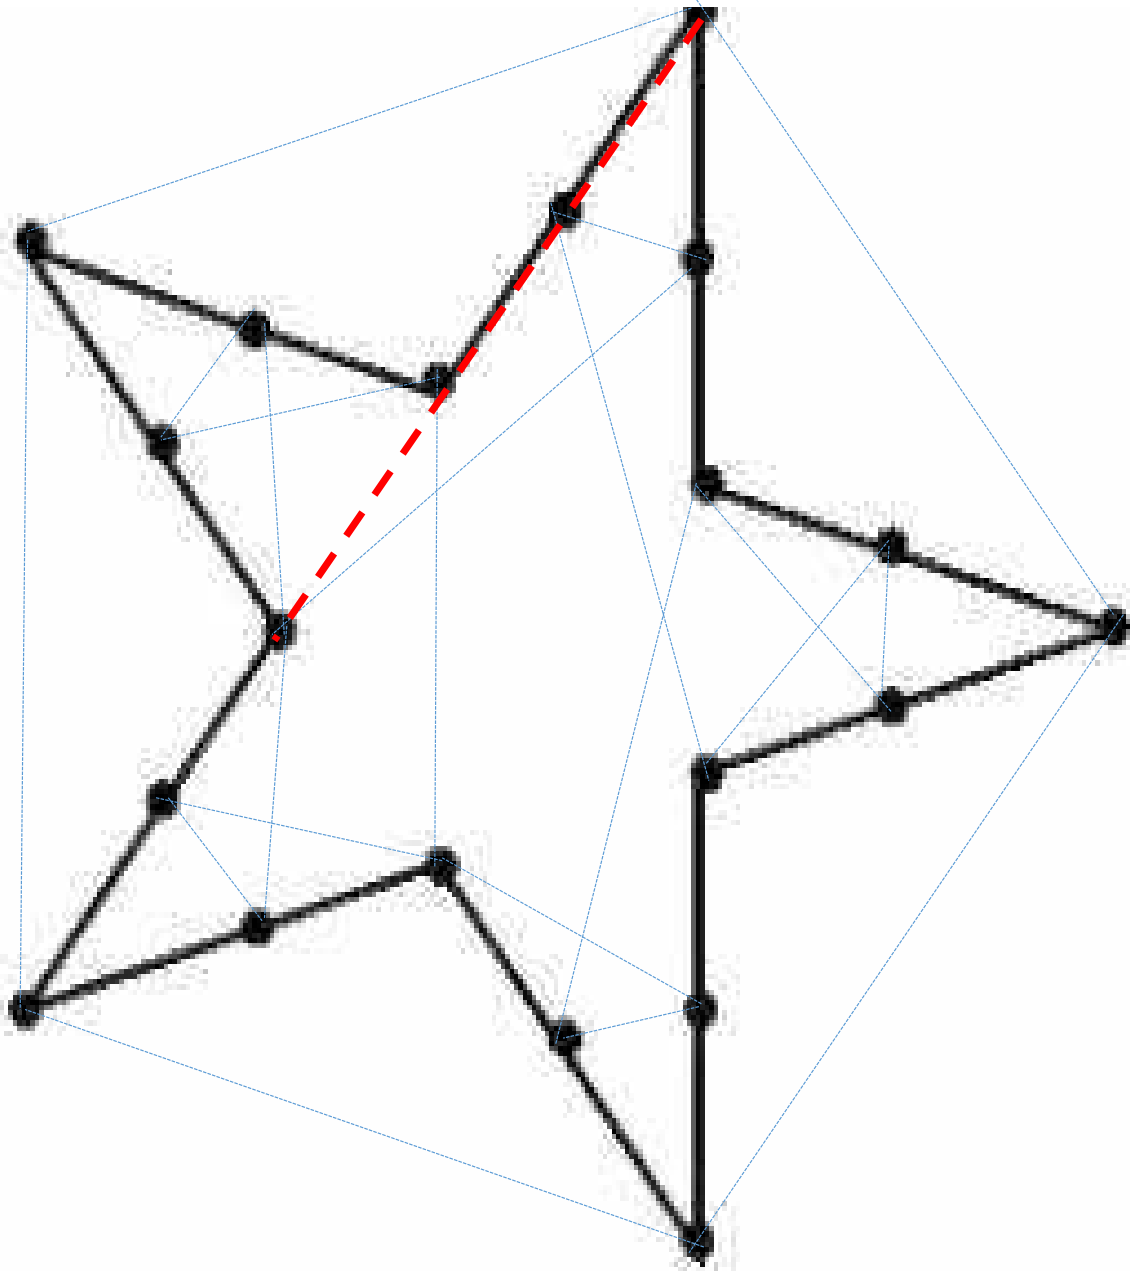

String craft : Practice pattern

Looking at the image given below follow the instruction and complete the pattern.

- 1 Take a coloured string of your choice. Make holes at the points shown.
- 2 Start your pattern following the blue lines given.
- 3 Point where it is marked with red line ensure that the string passes below the paper between these two points.

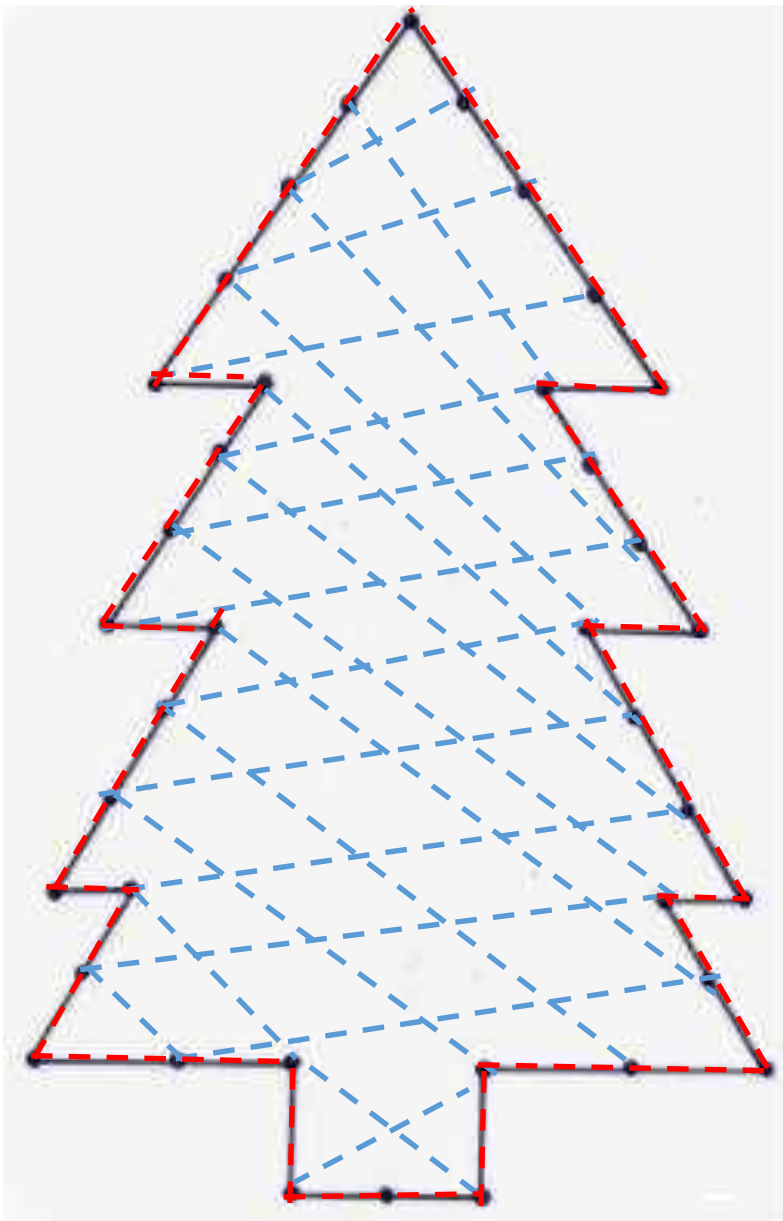

String craft: Practice techniques
